# THE Sound of SILENCE

SOUND THINKING FOR SOUNDPROOFING

SUPERIOR ACOUSTIC INSULATION

PRINTED IN CANADA-3751/2006-02

**ENERMAX**  
THE SOUND CHOICE

**SILENCE IS GOLDEN.** When it comes to absorbing and reducing sound, Enermax is the gold standard. Efficient, environment-friendly and affordable, these all-natural wood fibre panels are the ideal solution for residential construction projects.

## Peace and quiet in every room

**WHETHER IT'S FOR HOME RENOVATIONS OR NEW CONSTRUCTION, ENERMAX PANELS WORK FOR EVERY TYPE OF PROJECT. IT IS A HIGH-PERFORMANCE ACOUSTIC INSULATION THAT REDUCES NOISE TO A MINIMUM IN EVERY ROOM OF YOUR HOME.**

### HOME THEATRE

Keep noisy distractions out and all the sounds of excitement and drama in.

### PLAYROOM

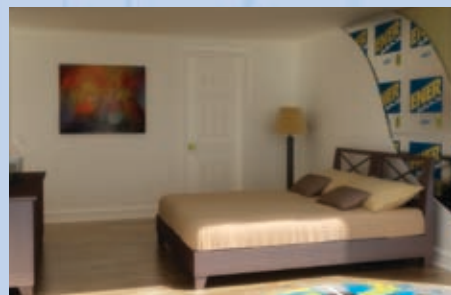

Maximum fun for the children and minimum noise in the rest of the house.

### LAUNDRY ROOM AND BATHROOM

Clean up the rattle and hum of the washer and dryer, and feel free to sing in the shower.

### BEDROOM

Shut out the noise and enjoy a peaceful night's sleep or an undisturbed afternoon nap.

## Excellent value and efficiency

### LOW COST

Manufactured from recycled materials, Enermax offers maximum soundproofing at a very competitive and surprisingly affordable cost.

### EASY TO INSTALL

Enermax 4' x 8' - 1" panels are lightweight, easy to handle and easy to cut with a utility knife, making every project fast and simple.

**ENERMAX ABSORBS NOISE, MAKING IT EASY TO BUILD WALLS AND CEILINGS WITH AN STC (SOUND TRANSMISSION CLASS) FREQUENCY OF UP TO 65. THE HIGHER THE STC, THE LESS NOISE IS ABLE TO PASS THROUGH WALLS.**

### EFFICIENT

Enermax quietly delivers four energy efficiency factors, creating a continuous and highly effective sound, vapour and air barrier, while adding an insulation value of R4.7.

### ENVIRONMENTALLY FRIENDLY

Enermax contains absolutely no chlorofluorocarbons (CFCs) or volatile organic compounds (VOCs) which contribute to the greenhouse effect.

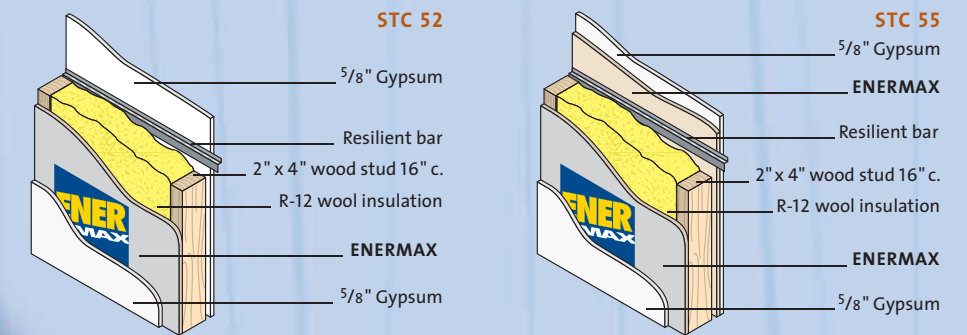

### RECYCLED AND RECYCLABLE

Almost 100% of the wood fibre used to make Enermax panels is recycled by-product which would otherwise be considered waste. All products that do not meet our strict standards are transformed into a safe fertilizer or recycled to create new products.

### RECOMMENDED STC

	RECOMMENDED STC
Home theatre	55
Basement ceiling	52
Master bedroom	52
Bathroom	55
Exterior walls	43
