

Breathe easy:

BP Air-Lock is one tough air barrier

COMFORT, ENERGY EFFICIENCY AND PEACE OF MIND

Lock out the weather. Lock in the comfort.

New **BP Air-Lock** housewrap meets code all across the country, protecting residential and commercial buildings in every kind of weather.

AIR RESISTANCE THAT BREATHES

Reduces drafts and lowers energy costs with its breathable air barrier properties.

- Non-woven, non-perforated polypropylene keeps buildings cool in summer and warm in winter

WATER RESISTANCE THAT PROTECTS

Reduces the risks of moisture damage and prevents the growth of mould, mildew and rot within the wall cavity.

- Prevents water infiltration from the outside and allows water vapour inside to escape

ENERGY EFFICIENCY THAT SAVES MONEY

Effectively keeps the harshest weather on the outside and maintains R values and comfort on the inside.

QUICK AND EASY, SEE-THRU APPLICATION

Line-up and installation is fast with easy-to-see nail guides every 8 inches.

- Saves time and labour costs

ROLL SIZES

- 10 ft x 95 ft and 40" x 100 ft

PHYSICAL PROPERTIES & TEST RESULTS

PROPERTY	TEST METHOD	UNIT	RESULTS
Tear Strength	ASTM D 4533	lbf	16/15
Water Vapor Permeance*	ASTM E 96	perms	6.2
Water Vapor Transmission*	ASTM E 96	g/m ² 24 hrs	42.6
Water Resistance*	ASTM D 799	hours	> 24
Unit Weight	TAPPI – 410	oz/syd	3.3

*Tests by Independent labs

CCMC EVALUATION: 13294 – R and 13298 – R
