WATERPROOFING MEMBRANES

TRIPLE CHOICE OF SURFACES

SAME WINNING RESULT

Weather is unpredictable

THREE SURFACE FINISHES THAT WILL DELIVER THE GRIPPING PERFORMANCE ROOFERS EXPECT FROM

BP
WATERPROOFING MEMBRANES

Water is an erratic traveller. Roofers know that these two elements paired together can trigger damages to the roof deck and eventually the home interior that can add up to substantial financial losses. With BP's line of **three waterproofing membranes**, you can be certain you'll multiply your odds of providing the **most effective protection** from normal water flow to wind-driven rain and ice dams.

Personal preferences and roof slopes vary, hence the **BP choice** of poly, sanded and granular surfaces made with a rubberized Styrene-Butadien-Styrene (SBS) asphalt, to match the convenience and non-slip performance you need to work safely and professionally.

GRIPGARD

PROGARD ULTRA

GRIPGARD SX

BENEFITS & FEATURES	PROGARD ULTRA	GRIPGARD & GRIPGARD SX
Superior traction slip-resistant surface	High-performance polyethylene with black cross-embossing	GRIPGARD: Classic granular finish GRIPGARD SX: Innovative sand finish
Permanent and continuous waterproofing defense against water penetration, including ice dams and wind-driven rain	✓	✓
Multiple use convenience, i.e. roofing and re-roofing, on eaves, in valleys, along ridges, at roof perimeters and joint flashings, and around chimneys and skylights	✓	✓
Ideal under asphalt shingles, wood shakes and slate roof assemblies	✓	✓
Advanced flexibility and pliability even in cold weather for ease of angling and cornering	✓	✓
Self-sealing expansion and contraction around nails to prevent water from migrating toward the deck	✓	✓
No special tool for a clean and time saving application – no adhesives required	Strong release peel away paper backing	Split silicone release film peel away backing
30-day exposure UV resistance	✓	✓
100% 3-year full replacement warranty against manufacturing defects	✓	✓
Available in smaller formats	MINI PROGARD 910 mm x 7 m (35.8 in x 22.9 ft)	MINI GRIPGARD 914 mm x 14 m (36 in x 47 ft)
